

Valley View Health Center's Board of Directors is looking for a few good people to join the VVHC Board

There are thirteen non-profit Valley View Health Center clinics in three counties overseen by a volunteer Board of Directors. The Valley View Health Center (VVHC) Board invites you to apply to join the Board. Preference is given to people who are currently users of VVHC services.

If you are interested in the quality of services provided, strategic direction for the organization, and health care in your community (and can pass a background check), you may be a good candidate for this volunteer position.

The Board of Directors oversees the management of VVHC. The Board accomplishes this task, as it oversees the quality of services provided as well as provides strategic direction for the organization. Board members are expected to attend monthly board meetings, participate in one or more board committees, and attend board work sessions. All board members must be able to pass a routine background check. All board members received ongoing continuing education. New board members are paired with a current member of the board to act as a mentor and are provided ongoing board education.

If you are interested in shaping health care....

Please contact us at administration@vvhc.org. We will provide an application for board membership. After you return the completed application, you will be contacted by a member of the Board Membership Committee.

Greg Martin
President, VVHC Board
